

Premium Add-on device for your home

This Smart Flood Sensor, adopts ZigBee wireless module. Super low power consumption circuit design, makes long battery lifespan. High precision and sensitivity, applicable for basement, machine room, hotel, water tower, pool, swimming pool, solar, kitchen, bathroom and other places may have water leakage or water overflow.

Features

- **Standard ZigBee protocol, good compatibility;**
- **Super low power consumption design;**
- **Low battery indication;**
- **Easy taking out battery and replacing battery;**
- **Free tool installation, stick and play;**
- **Smart and fashion design, with appearance design patent;**

Specification

- Model Number: MIR-WA100-TY
- Working Voltage: DC3V
- Battery Type: CR2032 battery
- Battery Life: More than one year (20 times per day)
- Networking Method: ZigBee
- Low Battery Indication: Yes
- Working Environment: -10°C ~ +55°C
- Product Size: φ50x18 mm
