## Product Overview

### Front Panel

C313X

### Rear Panel

\*NOTE:C313N does not have PON\_OUT Interface.

## Installation

### Without 86 embedded box in the wall

Mark two fixation holes through wall bracket on the wall, the distance between which is 60mm. Make sure the all cables can be passed from the middle of wall bracket.

Take down the bracket, then using a 5mm hand drill to make the two fixation holes on the wall you marked before.

Use two ST4X20 screws to fix the wall bracket on the wall.

Once the fixation holes are made, insert the two screw fixing seats provided.

### With 86 embedded box in the wall

Make sure all cables in the 86 embedded box.

Fix the wall bracket on the 86 embedded box with two M4X30 screws.
